

# Sacred Heart School Jan. 13th, 2023

## Your Sacred Heart Education is Special

Sacred Heart School is a special place where our families and their children know that they are loved. Father Todd and I see you in the morning, when you drop your children off. It is so refreshing to see how much you love your children as you part ways to brave the day. We can see how hard you are working to support your family and the team effort that is involved with raising them well.

As teachers and helpers, we feel called to a culture of greatness, where faith is at the center of all that we do. Each student who enters the school doors is special to us. We see them as God's children who need to be well informed about how their mind, heart and soul works. This knowledge gives them the building blocks to grow in excellence. We know that if children are taught to seek answers and be curiously driven to find them, they can achieve a life of purpose.

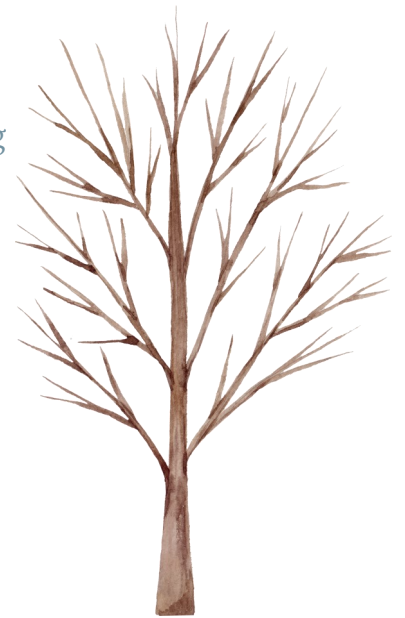

We set out at the beginning of the year to see the way God sees. To love God and to love ourselves the way God loves us. When we practice seeing through God's eyes, we can love others and be wonderful people of God.

Sacred Heart students are taught to behave with virtue. Our Steps to Sainthood program builds up basic virtue from Preschool through 6<sup>th</sup> grade. Our students understand that their words matter and their actions are a choice that can bring them closer to God. Even at a very young age, children understand that it is important to do the right thing and we are here to ensure that they do. Your children will need to be guided by personal strength and courage to live well in this world. Sacred Heart School can provide this for them!

Our school days are filled with challenges, lessons, hard work, prayer, understanding, love, fun and so much joy.

God Bless,

Anne Atkin, principal
